## 3D PRINTING SOLUTION

Powered by LuxCreo.  
Optimized for Glidewell.

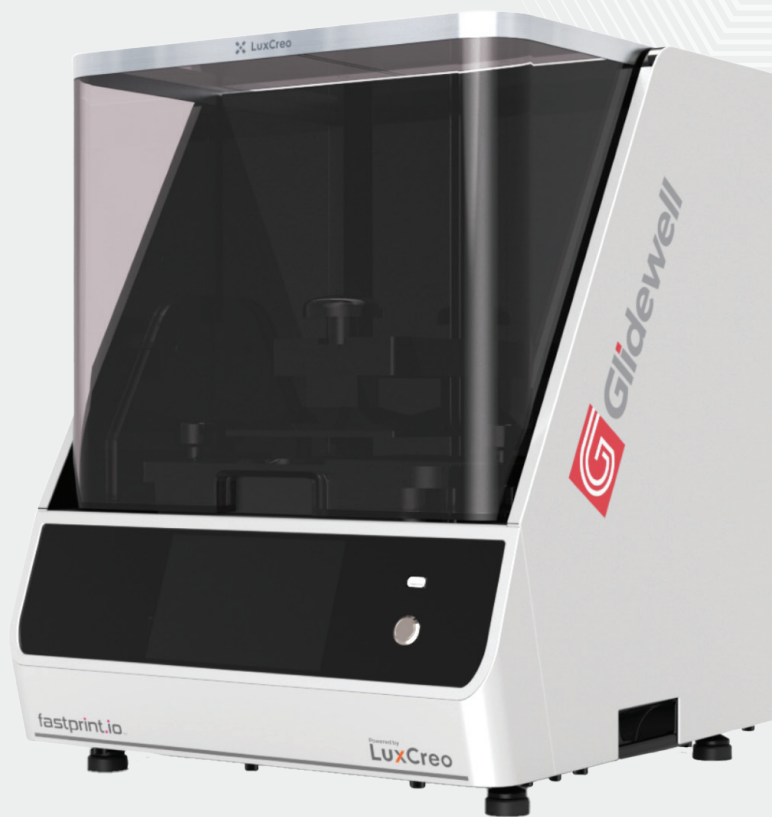

Start printing with  
fastprint.io™ for only  
**\$16,990**

Includes wash and  
cure station plus  
starter kit.

### Welcome to the Next Wave of Digital Dentistry

The fastprint.io™ 3D Printing Solution combines the innovation of LuxCreo with the simplified workflow of the glidewell.io™ In-Office Solution to give clinicians an efficient and cost-effective 3D printing experience.

- Use a range of resins developed by Glidewell for a streamlined workflow to create models and nightguards, plus a variety of LuxCreo compatible materials to print crowns, retainers, and aligners. Additional indications, including dentures, are currently in development.
- Depend on the reliable AI-powered design software used in Glidewell's lab to simplify your production process for increased efficiency and output.
- Powered by LuxCreo, the fastprint.io requires minimal post-processing compared to other 3D printed technologies and can directly print clear appliances with LuxCreo Digital Polishing™.
